

HW10 MAINS POWERED HEAT ALARM

| | |
|---------------------|---------------------------------------|
| Sensor type | Thermistor |
| Battery type | Mains powered with 9V battery back-up |

The HW10 is a mains powered heat alarm with long life 9V battery back-up. Class A2 heat detection 54° C – 70° C, suitable for use in areas not generally recommended for traditional smoke alarms such as kitchens, attics and garage spaces.

- 230V mains powered heat alarm
- Replaceable long life 9V lithium battery back-up
- Modern design style
- Ideal for kitchens, attics and garages
- Large central test button
- Separate silence button
- LED operating indicators – Power, Fault / Alarm
- Low battery warning indicator
- Multi-alarm interconnect up to 12 smoke (SW1 or SW10), heat (HW1 or HW10) & CO (CW1) units – when one sounds they all sound
- Safety clip feature, to prevent installation of heat alarm without battery installed
- 5 year warranty
- BS 5446-2: 2003

Technical Specification

| | |
|-------------------------------|-------------------------------------|
| Dimensions | 126mm (diameter) x 49mm (depth) |
| Model number | HW10 |
| Description | 230V heat with long life 9V back-up |
| Technology | Thermistor |
| Alarm sound level | 85db at 3 metres |
| Battery type | 9V PP3 Lithium |
| Operation AC/DC | AC |
| Installation positions | Ceiling |
| Operating temperature | Class A2 detection : 54°C – 70°C |
| Operating humidity | 10% to 85% relative |
| Storage temperature | 5°C (40°F) to 38°C (100°F) |
| Storage humidity | 10% to 85% relative |
| Warranty | 5 years |
| Approvals | BS 5446-2: 2003 |
